About Formclad & Our Mission

Formclad is the specialist partner for commercial and architectural builders seeking high-performance roofing and façade solutions in South Australia. Our company was founded by seasoned industry professionals, led by Director Travis, to address a critical gap in the market for a technically proficient and reliable contractor for complex installations.

We are not generalists. Our foundation is decades of hands-on experience in commercial construction, enabling us to provide end-to-end services from pre-construction consultation to precision installation. We forge partnerships as robust as our structures, ensuring your project's architectural vision is realised without compromising on quality or safety.

BUILD WITH CONFIDENCE. BUILD WITH FORMCLAD.

Our Mission & Values

Our mission is to deliver superior outcomes on every project, solidifying our position as Adelaide's leading specialist in commercial roofing and architectural cladding. We achieve this by embedding our core promise into every action. This is achieved by operating on our core values:

- **Precision:** We are uncompromising in our commitment to detail. From pre-construction planning to the final fixing, our work is executed with the highest standard of accuracy.
- **Performance:** We build structures that are not only visually impressive but are robust, durable, and built to withstand Australian conditions. We use premium materials and proven techniques to guarantee a high-performance building envelope.
- **Partnership:** We operate as an extension of our client's team. This is achieved through dedicated teamwork—both within our own crew of skilled professionals and in our seamless integration with the principal contractor and other trades on site. Through proactive collaboration and transparent communication, we build relationships as strong and reliable as our installations.

The Formclad Difference

We understand that demanding commercial and architectural projects require more than just quality installation; it requires a partner dedicated to a seamless, reliable, and safe project delivery.

Uncompromising Safety & Compliance

Safety is the non-negotiable foundation of every action we take on-site. We guarantee peace of mind through:

- **Project-Specific Planning:** Providing comprehensive Safe Work Method Statements (SWMS) for all high-risk activities.
- **Australian Standards:** Operating in strict accordance with all relevant standards for roof plumbing and metal cladding.
- **Proactive Safety Culture:** Fostering a culture of safety-first to protect our team, your staff, and your investment.

Quality Assurance & Accountability

We build our reputation on the quality of our work and the reliability of our service. We stand behind every installation with:

- **12-month Workmanship Guarantee:** Giving you long-term confidence in our installation.
- **Premium Materials:** Exclusively using Australian-tested materials like COLORBOND® and Zinalume® steel.
- **A Solutions-Focused Approach:** Acting as a collaborative partner to solve challenges and ensure the final product meets your design intent and performance requirements.

Frequently Asked Questions

1. What types of projects do you specialise in?

We specialise in architectural cladding and roofing for small-to-medium commercial new builds, large-scale industrial re-roofs, and architecturally demanding façade installations. Our focus is on high-performance outcomes, and we do not undertake general maintenance or heritage work.

2. How do you collaborate with builders and architects during the design phase?

We operate as a collaborative partner. Our solutions-focused approach means we can engage early to provide technical advice on material selection, system design, and complex detailing. We are happy to provide expert product knowledge for specialist finishes and identify potential cost-saving options to ensure the final product meets the design intent, performance requirements, and budget.

3. What is your approach to site safety and integration?

Safety is the foundation of every action we take. We provide comprehensive, project-specific Safe Work Method Statements (SWMS) for all high-risk activities and operate in strict accordance with all relevant Australian Standards. Our team is committed to integrating seamlessly with your master construction schedule to prevent delays.

4. What warranties and guarantees do you provide?

We provide a 12 month workmanship guarantee on our installations, giving you long-term confidence in the quality of our work. This is in addition to the extensive material warranties provided by our premium suppliers, including COLORBOND® and Zinalume® steel.

5. Are you fully licensed and insured for commercial work?

Yes, we are fully licensed (**BLD 333524**) and insured for all commercial and architectural projects across South Australia. All relevant certificates of currency are available upon request.
